

A woman with blonde hair styled in a low bun is seated on an ornate, gold-framed chair. She is wearing a white, long-sleeved dress with a lace-up bodice and a full skirt. She is looking off to the side with a serene expression. The chair is surrounded by a large arrangement of flowers, including several large purple spherical flowers (alliums) and many smaller white and yellow roses. The background is a light-colored wall with decorative paneling. The word "SATISFACTION" is written in a tall, thin, black, sans-serif font across the bottom right of the image.

SATISFACTION

Government events take an important
part in the portfolio of our company

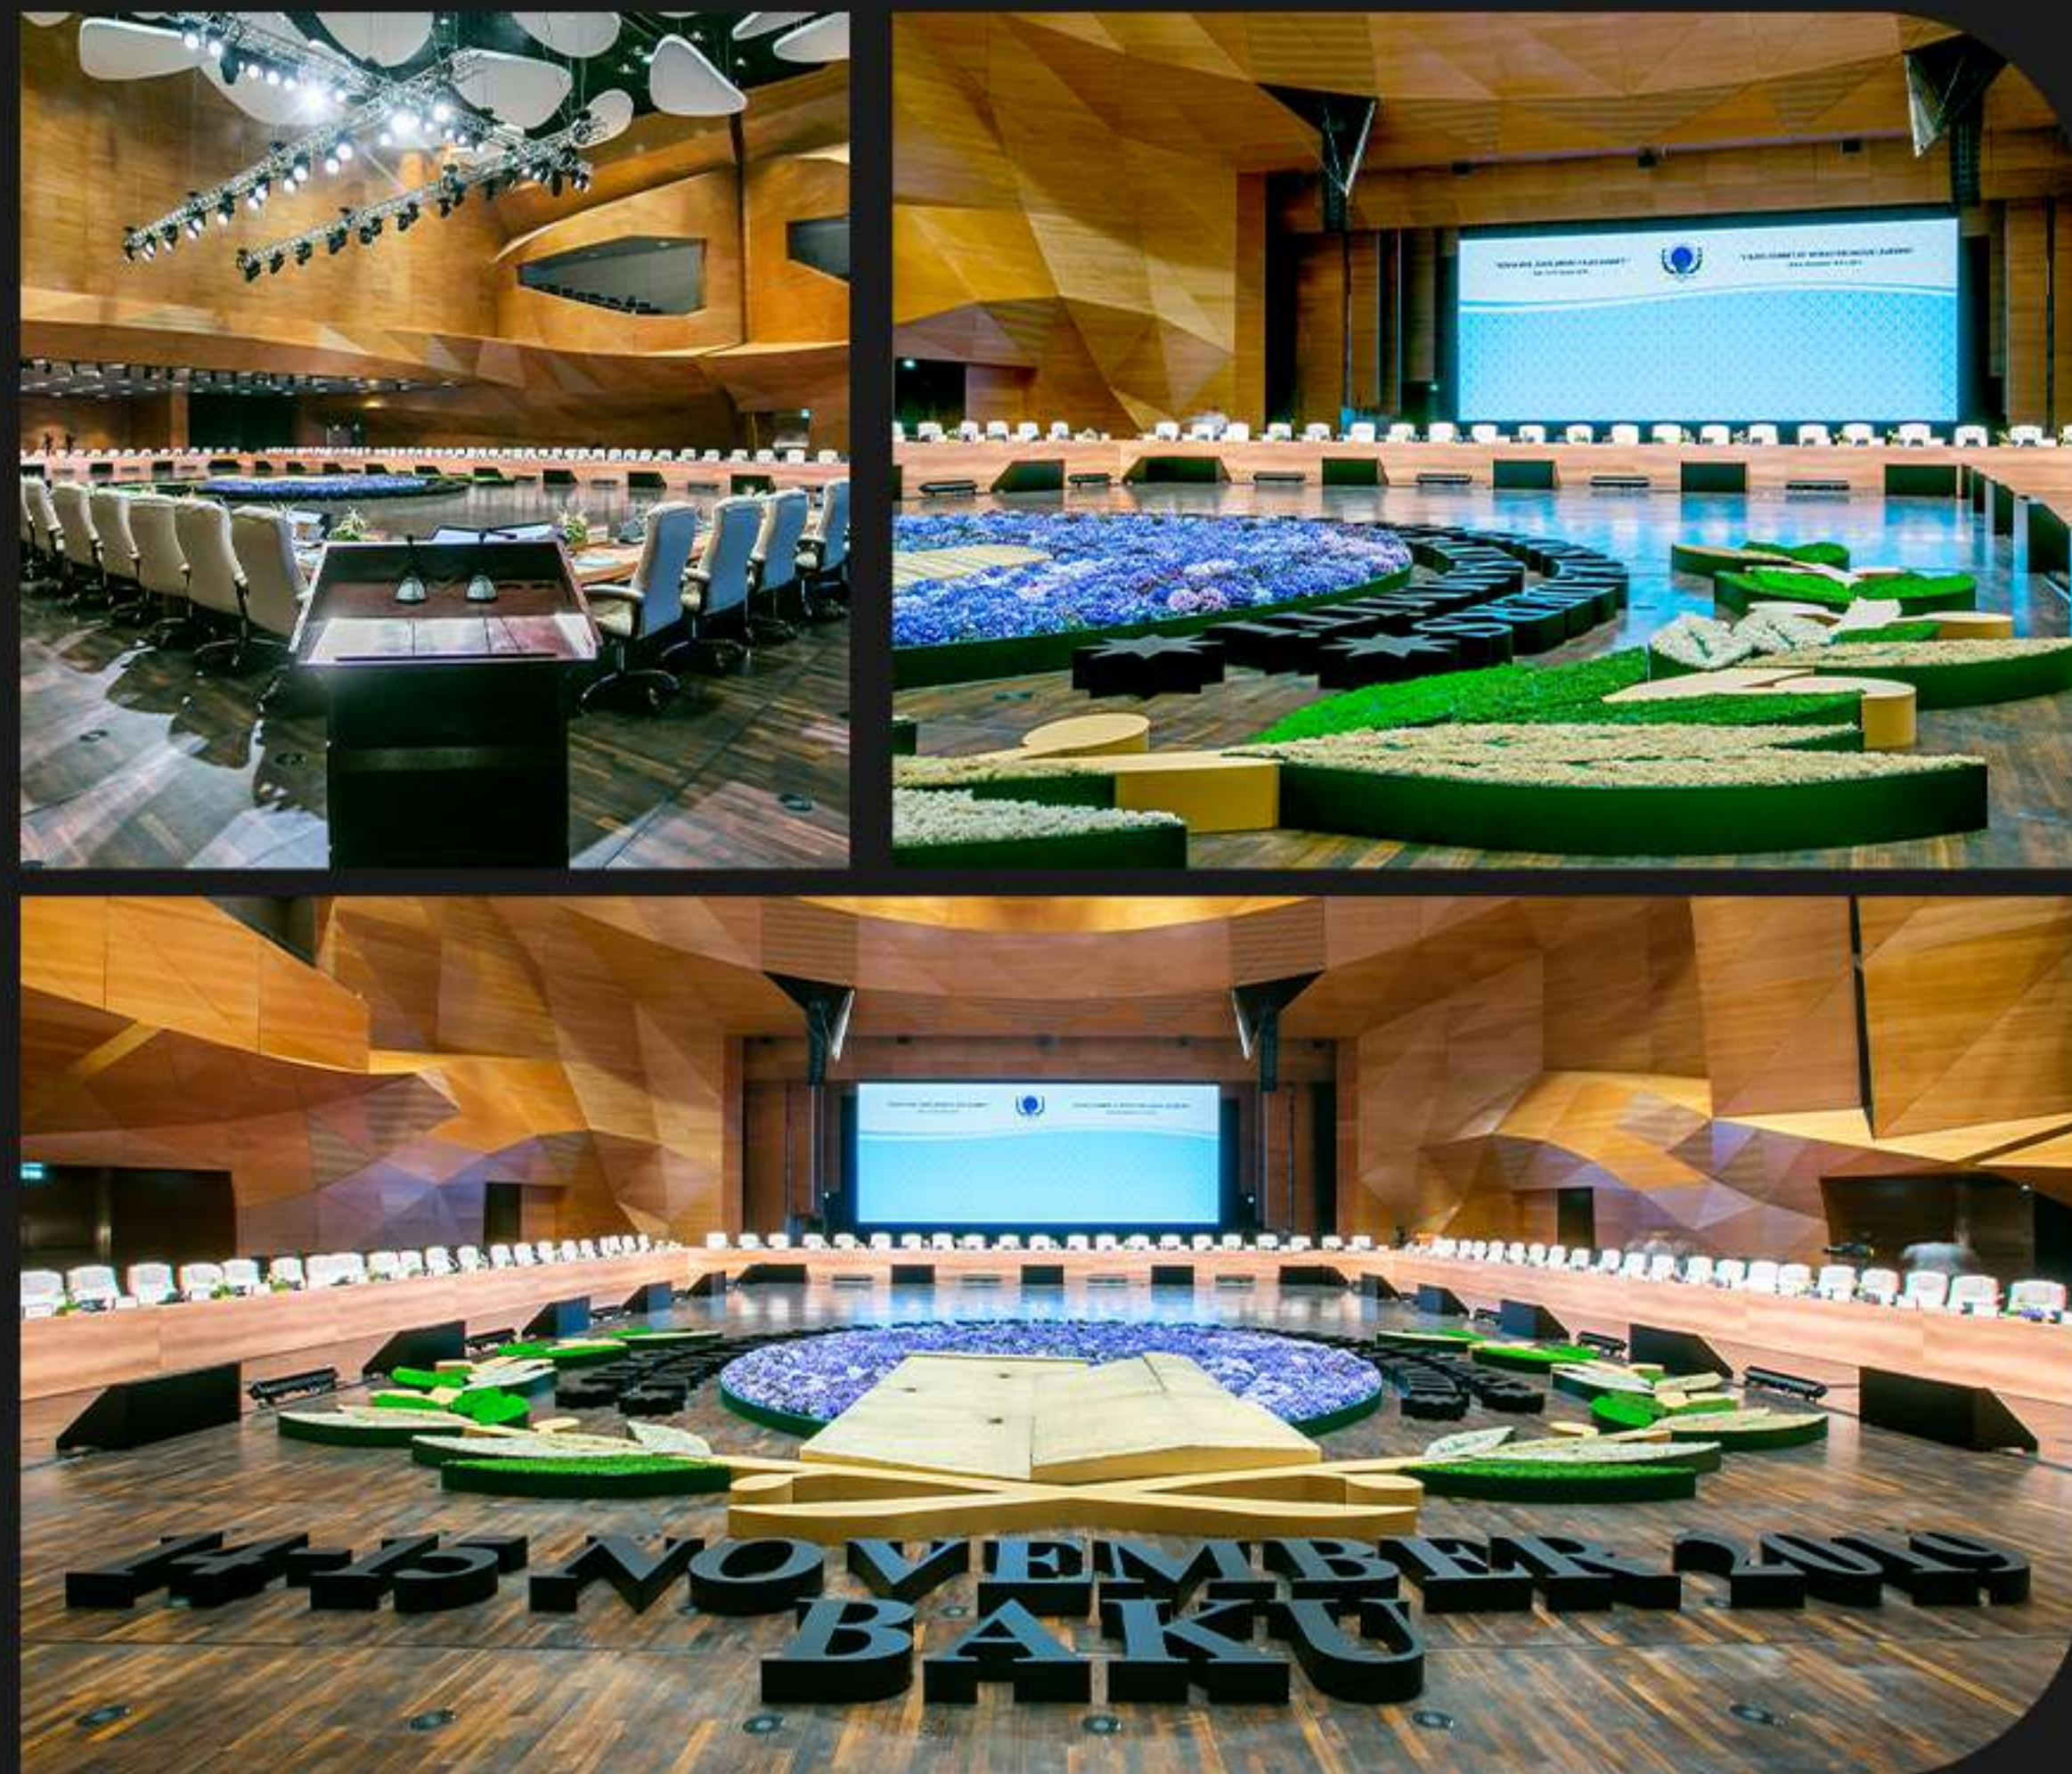

All flower arrangements are products of a synthesis of nature and art.
Even when there is a regulation. Even when there is a protocol.

Any floral decoration of any scale must be delightful and perfect!

Work on the design of Government events with the help of fresh flowers and plants is very original and requires a delicate integrated approach.

Meticulous selection of colors, according to diplomatic protocol, in tandem with a creative approach, even to government projects add aesthetic beauty and a solemn atmosphere

Government projects are exactly those projects for the organization of which our company was awarded a special honor

Every detail is of great importance when in compliance with the regulations and is obliged to convey the essence of the event

Business floristics, which also includes table compositions, is one of the complex and, at the same time, interesting directions of flower decoration

Compliance with strict lines, a combination of conservative and restrained tones of flower combinations and the classic construction of a composition without excessive fanciful design touches - this is what distinguishes protocol floristics from authorship

Stringency. Clarity. Elegance.
Three main points of business floristics

The market is full of competition. And in order to demonstrate a new product as concisely, intelligibly and beautifully as possible, different companies use presentation of brand products as a positioning tool. That is why we offer the development of a marketing strategy using floristics

Any presentation is a technically very difficult event, and if you also need to connect with brand component and give every second of the action a meaning and message, it becomes even more entertaining

Unlike working with government projects, event marketing
opens up a wide space for creative ideas for us

The positive result of event marketing tactics and its high returns is obvious. After all, floristics is not just a beautifully decorated room with flowers, but also the originality of a creative solution, consistent with the general direction of the brand's development, as well as thorough preparatory work to create contact between the consumer and the product.
